

RIVERSIDE COUNTY
FILM & TELEVISION OFFICE

Request to Use Unmanned Aircraft Systems (UAS) within Indian Wells & Riverside County Properties.

(A full list of guidance and insurance requirements is found on the Riverside
County Film Commission Website: www.filmriversidecounty.com)

UAS PERMIT APPLICATION# : _____

Date _____ Production Company _____

Type of Production _____ Production Title _____

Proposed Film Date(s) _____ Production Contact _____

Contact's Cell# _____ Email Address _____

Location Address _____ Hours of UAS Activity _____

Location Address #2 _____ Hours of UAS Activity _____

UAS Company _____ Primary Contact _____

Address _____ Cell# _____

_____ Email Address _____

UAS / AIRSPACE INFORMATION

Make/Model of Aircraft _____ Registration# _____

Make/Model of Aircraft _____ Registration# _____

Total Payload Weight (incl. UAS/camera/additional equipment) _____

Class of Airspace UAS Activity Will Occur in: B C D E G

Restricted Areas or Temporary Flight Restrictions (TFR) Within Proposed Time/Area of Operation? Yes No

REMINDER: if you are flying in Class B, C, D or E airspace, ATC authorization is required for all UAS activity.

UAS OPERATING AUTHORITY: 333-Exemption 14 CFR Part 107

333 Exemption Requirements

Name of Pilot in Command _____ Pilot's Phone# _____

Exemption# _____

Visual Observer _____ VO's Phone# _____

Please provide the following:

- Copy of COA or Blanket COA
- Copy of Notice to Airman (NOTAM)
- Copy of Pilot's License
- Copy of POA with proof of submission to Local FSDO
- Certificate of Insurance & Endorsement

Part 107 Requirements

Name of Remote Pilot in Command _____

Remote Pilot's Phone# _____ Remote Pilot's Certificate# _____

If Remote Pilot will not be operating UAS, name of person operating UAS under the direct supervision of Remote Pilot _____

Please provide the following:

- Copy of Remote Pilot Certificate
- Copy of Part 47 or Part 48 Registration Certificate for each UAS listed above
- Description of planned flight operations, including diagrams, charts and maps as applicable
- Certificate of Insurance & Endorsement

WAIVERS: If you are requesting any of the following activities, please check all that apply and furnish proof of waiver from the FAA upon submission of this document.

- Flight over non-participants (§107.39)
- Operating from a moving vehicle (§107.25)
- Operating multiple small UAS' (§107.35)
- Night flight (§107.29)
- Flight altitude restrictions (§107.51)

Remote Pilot in Command is responsible for the safe operation of all UAS activities and declares that he/she will be in compliance with all Part 107 standards and requirements.

Signature of Remote Pilot in Command or Authorized Company Representative

Print Name _____ Title _____

Best Practices for UAS Operations Over State Property

Although not specified in Part 107 Rules, the RCFC suggests the following for optimum safety:

- Use of a visual observer.
- UAS operator should scout location site(s) of proposed drone activity in advance of filming.
- Operator should possess a Motion Picture & Television Operations Manual.
- Operator should have previous film set experience.

****IMPORTANT****

Please allow up to seven (7) business days for the Planning Department to process requests for film permits that include the use of drones, and be aware that the process will not begin until all required documentation has been submitted.

Also note that meeting all qualifications required of a Remote Pilot does not guarantee that permission to fly a small UAS in the City of Indian Wells or over Unincorporated properties will be granted. The City reviews applications on a case-by-case basis and consent or deny requests based on location conditions and specific agency guidelines.

Please submit this completed form, along with all accompanying documentation and Fee to the City of Indian Wells Planning Department at: 44-950 Eldorado Drive, Indian Wells CA. 92210

PLANNING DEPARTMENT USE ONLY

333 EXEMPTED

- Insurance
- COA
- POA
- Pilot's License
- Visual Observer
- NOTAM
- Copy to State Partner
- Copy to CHP
- Copy to CalFire

PART 107

- Insurance
- Remote Pilot Certificate
- Registration for each UAS
- Description of Flight Operations
- Waiver(s)
- ATC Approval
- Copy to State Partner
- Copy to CHP
- Copy to CalFire

Requirements for the Use of Unmanned Aircraft Systems (UAS) When Filming within Indian Wells & Riverside County Properties

On August 29th, the FAA's permanent regulations for the commercial operation of small Unmanned Aircraft Systems (sUAS) in the National Airspace went into effect. These new regulations provide guidance for conducting sUAS operations in accordance with Title 14 of the Code of Federal Regulations (14 CFR) **Part 107**.

Among other requirements, UAS operators flying drones under Part 107 must possess a Remote Pilot Airman Certificate. In addition, Part 107 requires a waiver to fly over people (including cast and crew), and the process to obtain a waiver could be lengthy. Applications from Part 107 operators who do not possess this waiver will be denied, unless they don't plan to fly over people.

Please note that drone operators who have been working under FAA 333 exemptions may continue to do so, as a 333 exemption remains valid until it expires. Be aware however, that an exempted operator may not "mix and match" the conditions and limitations in a Section 333 exemption with the operating rules of Part 107.

Planning will continue to accept applications and all associated documentation from productions using 333 exempted operators. Applications from those operating under Part 107 will be evaluated and approved on a case-by-case basis and may take longer to process.

Please allow **up to** seven (7) business days for planning to process requests for film permits that include the use of drones, and be aware that the process will not begin until all required documentation has been submitted.

In order to obtain a Part 107 Remote Pilot Airman Certificate, those (who do not already hold a Part 61 pilot certificate) must pass an initial aeronautical test at an FAA-approved knowledge testing center and be vetted by the TSA. Those with a Part 61 pilot certificate must have successfully completed a flight review within the previous 24 months and complete a Part 107 online training course.

Those applying under Part 107 are required to submit:

- A copy of their Remote Pilot Airman Certificate
- A copy of the Part 47 registration certificate for each UAS being used
- A detailed description of proposed flight activities (including maps)
- Copies of all necessary waivers and approvals
- Proof of insurance coverage (as detailed below)

The following are links to the new regulations, a summary of Part 107 rules, information on obtaining a Remote Pilot Airman Certificate and how to apply for a waiver:

- [Complete Text of Part 107 Rule](#)
- [Summary of Part 107 Rule](#)
- [Becoming Remote Pilot Airman Certificate](#)
- [Applying for a Waiver](#)

PLEASE NOTE that while the FAA controls U.S. airspace, individual jurisdictions (states, counties, cities) may regulate take-offs and landings within their jurisdictions. Additionally, the FAA does not regulate the use of UAS indoors (on a stage, in a building or other enclosed areas). Indoor drone activity will require other applicable approvals.

INSURANCE REQUIREMENTS (*Mandatory for both 333 and Part 107 operators*):

A production entity that wishes to film in Riverside County must provide RCFC with a certificate of insurance evidencing coverage of General Liability, Workers Compensation and Automobile Liability. (Insurance Requirements for minimum coverage are including in RCFC Film Permit Package)

If the production's proposed activities include the use of a drone, additional aerial coverage must be provided by the UAS operator. The additional requirements are to provide:

1. Proof of Unmanned Aircraft Systems (UAS) coverage (listing the specific aircraft to be used) with a **limit of at least \$2,000,000**. This can be submitted in one of two ways:
 - a. If UAS coverage is being added to a general liability policy, there must be a **separate endorsement** showing proof of UAS coverage.
 - b. If the coverage is coming from an *aviation-specific* insurance carrier (such as Global Aerospace), a separate policy endorsement is **not** necessary, as the entire policy represents the UAS coverage.
 - c. A separate endorsement naming the County of Riverside, its officers, agents and employees as Additional Insured
2. Please note that all **separate endorsements** must be submitted as **separate attachments** (not included in the body of the certificate of insurance).

333 GUIDELINES

In order for a production to be considered for a permit involving a UAS, the following documentation is required:

1. Proof that the production is using a UAS operator who has received an FAA 333 exemption. The exemption must be for motion picture, television and new media filming and/or aerial cinematography – as long as it's for commercial filming and not aerial surveillance of pipelines, crops, real estate, etc.
2. A copy of the operator's Certificate of Authorization (COA).
NOTE: UAS operators had originally been required to apply for and receive a COA for each particular block of airspace (location), but the FAA has recently streamlined their process, and now exempted operators are being granted blanket COAs for flights at or below 200 feet, as long as they're not flying in the vicinity of airports or in other restricted airspace.
3. A copy of the operator's written Plan of Activities (POA) as submitted to the FAA.

IMPORTANT NOTES

- UAS operators must have all pertinent documentation **on set with them at all times**. This includes their Certificate of Authorization (COA), Plan of Activities (POA), pilot certificate and third-class medical certificate.
- The use of a UAS is permitted only when all qualifications have been met, all necessary approvals have been obtained, and use of a UAS is noted on the production's permit. If a production is found to be operating a UAS without the proper permit, an FAA Administrator, the assigned Fire Safety Officer or law enforcement official may immediately suspend the UAS activities and/or the production may be subject to a fine.
- The use of a UAS as a **PROP** (that is being flown) is subject to the same regulations as those used for filming.
- The FAA does not regulate the use of UAS indoors (their jurisdiction covers U.S. airspace, not under the roofs of private structures). Be advised that approval for the use of UAS in a stage or building may fall under the authority of other jurisdictions. Also note that when interior filming is involved, RCFC recommends that UAS be flown by FAA-exempted operators.
- On October 9, 2015, Contract Services Administration Trust Fund issued Safety Bulletin #36, "Recommended Guidelines for Safely Working Around Unmanned Aircraft Systems" and its Addendum A, "Unmanned Aircraft Systems Exemption Summary". It's posted on the csatf.org website, but you can access both by clicking on these links: <http://www.csatf.org/pdf/36UAS.pdf> and http://www.csatf.org/pdf/36ADDENDUM_A.pdf
A copy of the safety bulletin should be attached to your call sheet on days when a UAS is being used.

The following are 15 of the most pertinent TERMS & CONDITIONS (to those on-set) required of (FAA-exempted) UAS operators.

1. The UAS must weigh less than 55 pounds, including energy source(s) and equipment.
2. The UAS may not be flown at a speed exceeding a ground speed of 50 knots.
3. Flights must be operated at an altitude of no more than 400 feet above ground level (AGL).
4. The UAS must be operated within visual line of sight (VLOS) of the pilot in command at all times.
5. All operations must utilize a visual observer (VO).
6. The pilot must possess at least a private pilot certificate and at least a current third-class medical certificate.
7. The UAS may not be operated directly over any person, except authorized and consenting production personnel, below an altitude that is hazardous to persons or property on the surface in the event of a UAS failure or emergency.
8. Regarding the distance from participating persons, the operator's manual has safety mitigations for authorized and consenting production personnel. At all times, those persons must be essential to the closed-set film operations. Because these procedures are specific to participating persons, no further Flight Standards District Office or Aviation Safety Inspector approval is necessary for reductions to the distances specified in the petitioner's manuals.
9. Regarding distance from non-participating persons, the operator must ensure that no persons are allowed within 500 feet of the area except those consenting to be involved and necessary for the filming production. This provision may be reduced to no less than 200 feet if it would not adversely affect safety and the FAA Administrator has approved it. For example, an equivalent level of safety may be determined by an aviation safety inspector's evaluation of the filming production area to note terrain features, obstructions, buildings, safety barriers, etc. Such barriers may protect non-participating persons (observers, the public, news media, etc.) from debris in the event of an accident.
10. The operator must obtain an Air Traffic Organization issued Certificate of Waiver or Authorization prior to conducting any operations under this grant of exemption. This Certificate of Authorization will also require the operator to request a *Notice to Airman* not more than 72 hours in advance, but not less than 48 hours prior to the operation.
11. At least three days before scheduled filming, the operator of the UAS affected by this exemption must submit a written *Plan of Activities* to the local Flight Standards District Office with jurisdiction over the area of proposed filming. The 3-day notification may be waived with the concurrence of the Flight Standards District Office. The plan of activities must include at least the following:
 - Dates and times for all flights
 - Name and phone number of the operator for the UAS filming production conducted under this grant of exemption
 - Name and phone number of the person responsible for the on-scene operation of the UAS

- Make, model and serial or N-number of UAS to be used
- Name and certificate number of UAS pilots involved in the filming production event
- A statement that the operator has obtained permission from property owners and/or local officials to conduct the filming production event; the list of those who gave permission must be made available to the inspector upon request.
- Signature of exemption-holder or representative
- A description of the flight activity, including maps or diagrams of any area, city, town, county and/or state over which filming will be conducted and the altitudes essential to accomplish the operation.

12. UAS operations may not be conducted at night (without a waiver).

13. The UAS cannot be operated by the pilot from any moving device or vehicle.

14. The UAS may not operate in Class B, C, or D airspace without written approval from the

15. FAA. The UAS may not operate within 5 nautical miles of the geographic center of a nontowered airport as denoted on a current FAA-published aeronautical chart unless a letter of agreement with that airport's management is obtained, and the operation is conducted in accordance with a Notice to Airman as required by the operator's Certificate of Authorization. The letter of agreement with the airport management must be made available to the Administrator upon request.

16. The documents required under 14 CFR § 91.9 and § 91.203 must be available to the pilot at the ground control station of the UAS any time the aircraft is operating. These documents must be made available to the Administrator or any law enforcement official upon request.

For more information on the use of UAS, go to: <http://www.faa.gov/uas/>
