

Safety Action Plan Safety Summit

Wednesday, March 20th, 4pm

Help us improve travel within Indian Wells

Share input as part of the City's first Safety Action Plan

Safety Action Plan (SAP)

A Safety Action Plan is a data-driven safety plan that coordinates the efforts of a wide range of organizations to reduce traffic fatalities and serious injuries on all public roads. Based on this analysis, the SAP creates a framework to recommend and prioritize safety improvements on a citywide level for future planning and development efforts towards a safer community for pedestrians, bicyclists, and motorists.

Get Involved!
